

## Softcare Furniture Protector 500 ml

This efficient and easy-to-use Softcare Textile Protector forms a highly effective molecular shield around fibres to guard against virtually all kinds of liquids, stains and soiling. Does not change the feel, colour or other properties of the fabric. Does not contain PFOS or PFOA compounds. Safe to use and biodegradable. Recommended for protection of all textile surfaces, but especially for bright fabrics on which dirt is clearly visible. The protection does not alter fabric appearance, air permeability or flammability. Suitable for all fabric types from thick upholstery fabrics to thin silk fabrics. Protection will last 2-3 years in normal use. Treated fabrics are easy to clean because the stains can easily be wiped off from the fabric with a cloth. The protection prevents all kinds of stains from sticking, even oil-based stains. Dry stains can be wiped off with a damp cloth. One bottle is sufficient for 5-7 m<sup>2</sup>, i.e. the surface of a five-seat sofa.

**Instructions for use:** The product is highly flammable; do not smoke while spraying or spray near open fire. Spray protection in a well-ventilated area from a distance of about 15 cm. Spray evenly on dry, clean surface until the surface is damp but not wet. First test the colour durability and other properties on an invisible spot and protect the surrounding area while spraying. Let dry in a well-ventilated area for at least 2 hours. Not suitable for faux leather or plastic.

**VAARA / FARA / DANGER WARNINGS AND ADDITIONAL INFORMATION**

H225 Highly flammable liquid and vapour. H319 Causes serious eye irritation. H336 May cause drowsiness or dizziness. P102 Keep out of reach of children.
